ABOUT ME

I am a Data Science student at the Institute of Technology of Cambodia with skills in Python, Machine Learning, Power BI, and Database Management. Passionate about data analysis and applying technical skills to real-world projects while continuously learning and growing.

WORK EXPERIENCE

- AI & Dashboard Intern | Sala Tech Pte. Ltd. | 3-Month
 - Worked on dashboards for data visualization and reporting.
 - Analyzed data and wrote database queries to support projects.
 - Assisted with AI-related tasks and worked with the team on project development.

VOLUNTEER EXPERIENCE

- Field Researcher | Keo Seima Wildlife Sanctuary | Aug 12-14, 2025
- Event Guide | Cambodia STEM Festival | Feb 7, 2026
- Registration Team | National STI Day | Mar 26-28, 2026
- Booth Team | Higher Education & Study Abroad Forum | May 23-24, 2026
- Route Team | Run for Border Children's Education | Jul 13, 2026

PROJECT

- 1st Place | AI Smart Farming Competition | StatNode
 - Built a precision agriculture system using a 7-in-1 IoT soil sensor.
 - Developed PostGIS mapping and a Khmer Telegram bot for fertilizer recommendations.
- Hotel Reservation System
 - Built an interactive sales dashboard using Power BI and DAX.
 - Cleaned and analyzed sales data for business insights.
- Adventure Works DW — Power BI Dashboard
 - Built a hotel booking web app with React/Vite.
 - Implemented booking and reservation management.
